Novotech Nutraceuticals is Expanding Production

January 08, 2013 | Omega-3 [1]

The functional ingredients supplier bought a manufacturing building in Bakersfield, California.

Novotech Nutraceuticals, Inc. (Ventura, CA) has purchased a manufacturing facility in Bakersfield, California to accommodate plans for increased manufacture of functional food ingredients. The 20,000-sq.-ft. building will house offices, warehousing, and production activities, and it should be operational by mid-2013.

Novotech Nutraceuticals is a supplier of water-soluble chelated minerals, omega-3 powder, non-acidic vitamin C, and other functional food ingredients.
